
AUTOMOTIVE

NORTH AMERICA'S ELECTRICAL AND AUTOMATION CONTRACTOR FOR AUTOMOTIVE SOLUTIONS

Spark Power is a full-service, industrial electrical contractor providing a unique blend of quality, professional electrical, automation and renewable energy solutions that keep operations up and running. Our mission is to respond with urgency, expertise and professionalism to minimize the length and frequency of downtime.

Spark Power is well-respected for its technical expertise and for executing complex projects on time and on budget. We always put our customers first, and it is with this commitment in mind that we continue to grow our locations across North America to provide a full set of automation, low and high voltage and renewable energy technical services.

Having delivered successful projects for the automotive industry, we understand the urgency of project timelines, as well as the critical nature of quality workmanship. Spark Power provides the local presence and in-depth knowledge to ensure a successful initial implementation and to support the solution for years to come.

AREAS OF EXPERTISE

- Electrical installations
- Maintenance services including shift coverage
- Preventative maintenance
- Electrical and automation trouble shooting
- 24/7 emergency services
- Turnkey automation solutions
- Renewable energy solutions
- Electronic repair

SERVICE CAPABILITIES

- Equipment installations/relocations and commissioning
- GenSet and battery energy storage installations
- Robotic cell installations/relocations and commissioning
- Machine safety upgrade/retrofits
- Lighting retrofits
- VFD PM programs
- Substation and switchgear annual PM

PROJECT EXPERIENCE

It has been our privilege to serve as the lead technical services provider in the successful delivery of automotive projects.

Plant Load Displacement Generators – $650,000

- Project management - subtrades co-ordination
- High & low voltage electrical installation
- Natural gas work

Shipping Conveyor System – $375,000

- Electrical installation
- Turnkey control system design, programming, commissioning & start up
- Control panel design & build

Outdoor Lighting Upgrade – $360,000

- Supply & install 17 LED retrofit kits

Production Line Installation - $290,000

- Electrical installation of 1600A buss duct
- Electrical installation of 800A bus duct, cable trays & cable
- Electrical installation of 400A buss plugs & feeds

Automated Interior Lighting System – $120,000

- Electrical installation
- Automated system setup & commissioning

Seat and Tire Unload Safety Upgrade – $89,000

- Project design, control panel & safety guarding
- Electrical installation

Plastics Plant 2.3MW Battery Energy Storage System - $345,000

- Engineering & major electrical equipment procurement
- Electrical, SCADA/P&C & civil installation
- LDC commissioning

Conveyor System – $295,000

- Electrical installation
- Turnkey control system design, programming, commissioning & start up
- Control panel design & build

Bushing Press Robot Cell Relocation - $154,000

- Electrical disconnection & reinstallation
- Robot recommissioning

Spark Power would be pleased to provide references from our customers upon request.

ONLY ZERO IS ACCEPTABLE

When it comes to safety, **only zero is acceptable. Zero** accidents at work.
Zero compromise to prioritizing safety.

Spark Power is a leading independent provider of end-to-end electrical services, operations and maintenance services, and energy sustainability solutions to the industrial, commercial, utility, and renewable asset markets in North America. We work to earn the right to be our customers' Trusted Partner in Power™. In the state of California, we operate under license #533593. In the state of Texas, we operate under license #TECL-34613.
