

BASE BUILDING

NORTH AMERICA'S ELECTRICAL CONTRACTOR FOR CONSTRUCTION PROJECTS

Spark Power is a full-service, electrical contractor, providing a unique blend of quality, professional electrical construction and design-build services that are code compliant. Our mission is to ensure all buildings we work on follow compliance prior to tenant fit-up including base building systems i.e. distribution, fire alarm, lighting, and exit/emergency.

Spark Power is well-respected for its technical expertise and for executing complex projects on time and on budget. We always put our customers first, and it is with this continued commitment in mind that we continue to grow our locations across North America and provide a full set of electrical construction and design-build services.

Having delivered successful construction projects, we understand the urgency of project timelines, as well as the critical nature of quality workmanship. Spark Power provides the local presence and in-depth knowledge to improve and create efficiencies on your overall building electrical system.

KEY AREAS OF EXPERTISE

- Project management
- Complete building electrical design & build
- Point-to-point conduit and wire installation
- Underground cable installation
- Base building and tenant fit-up electrical installation
- Preventative maintenance
