SPARKPOWER™

ELECTRONIC REPAIRS AND MAINTENANCE

REDUCE DOWNTIME. INCREASE EFFICIENCY. SAVE MONEY.

The productivity and profitability of your facility relies on the health of its electrical equipment. Spark Power keeps your equipment healthy with ongoing maintenance and restores it back to health with on-demand emergency repairs.

ELECTRONIC REPAIRS

If it's broken, then it's costing you time and money. Precise component repairs-either on-site or in our shop-get things back up and running.

Repairs

Simple or complex, our technicians will find the problem and fix it, fast:

- Circuit boards
- Variable frequency drives (VFDs)
- Programmable logic controllers (PLCs)
- Power supplies/inverters
- Sensors
- Safety circuits

Replacements

Component level repairs to restore the health of mission-critical devices throughout your facility:

- VFDs
- HMIs, interfaces, and monitors
- Power supplies
- Temperature controllers
- Servo and motion drives

Preventative maintenance

Complete system repairs and replacement to minimize unexpected downtime:

- 24/7 service
- Extensive manufacturer experience
- Equipment pick-up and delivery
- On-site troubleshooting

Tested for performance and reliability: Prior to returning your repaired equipment, it undergoes rigorous testing to ensure it will be reliable and deliver exceptional performance.

ONGOING MAINTENANCE

Regularly scheduled maintenance is the smart way to keep your equipment healthy and your best defense against unexpected and problematic issues.

Inspections

Thorough predictive testing to proactively spot risks and non-compliance issues:

- Control panels
- Power distribution networks
- Thermographic inspections
- Arc fault and ground fault interrupter (GFI) breakers

Equipment

Maintaining the operational efficiency and effectiveness of vital equipment:

- Breaker panels and survey panels
- Wire size
- Fuses
- Individual circuits

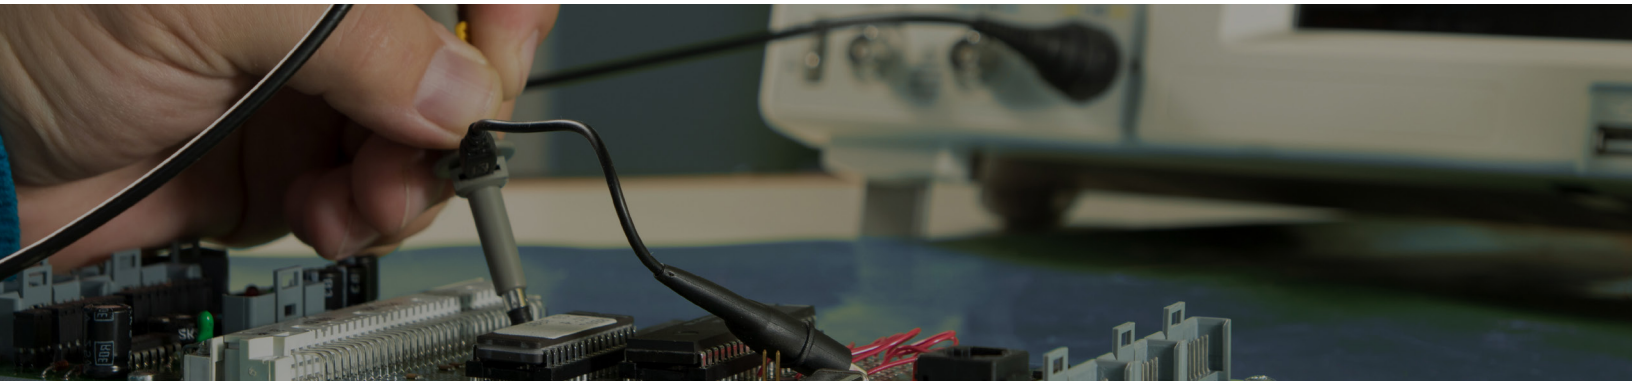
Back-ups

Ensuring important data is constantly saved and readily accessible:

- Programmable logic controllers (PLC)
- Human machine interface (HMI)
- Buttons
- Keypads

HEALTH AND SAFETY

When it comes to safety, **only zero is acceptable. Zero** accidents at work. **Zero** compromise to prioritizing safety.



Spark Power is a leading independent provider of end-to-end electrical services, operations and maintenance services, and energy sustainability solutions to the industrial, commercial, utility, and renewable asset markets in North America. We work to earn the right to be our customers' Trusted Partner in Power™. In the state of California, we operate under license #533593. In the state of Texas, we operate under license #TECL-34613.
