SPARKPOWER®

EV CHARGING SERVICES

Our experienced team is ready to provide you with project management, maintenance, and monitoring services. Since 2017, we have successfully installed and serviced a wide range of electric vehicle charging infrastructure. We take pride in having installed over 100+ Level 2, 50+ DC Fast Chargers, and 20+ Superchargers, totaling over 10MW.

EXPERIENCED

Our installations include equipment from top industry brands such as Tesla, Chargepoint, Flo, ABB, Siemens and AddEnergie.

FULL SERVICE

We offer complete, end-to-end solutions with a wide range of in-house capabilities, including design, install, commissioning, and maintenance services.

NORTH AMERICA WIDE

With branches across North America we mobilize our dedicated technicians quickly and efficiently to your site.

Engineering, Procurement & Construction (EPC):

We can provide turn-key EPC and adapt to your requirements for any size and scope. We leverage our existing relationships to select the best solution to deliver effective EV charging on your project.

Preventative & Corrective Maintenance:

We offer qualified maintenance for EVSE across a wide array of original equipment manufacturers (OEMs), always tailored to your requirements and supported by scheduled service to help you avoid costly downtimes and repairs.

Network Monitoring:

Our dedicated remote monitoring center offers 24/7 asset monitoring and technician dispatch, as well as integration into multiple SCADA systems. We are currently monitoring 40+ utility assets and 600+ commercial assets across North America.
