

INSTALLATION & COMMISSIONING

Our local team of experts can provide you with turnkey electrical installations, relocations, retrofits, integrations, commissioning, and maintenance.

FULL SERVICE

Providing end-to-end electrical contracting, operations and maintenance services for industrial facilities, renewable asset owners, and OEMS.

EXPERIENCED

Over 1000 highly skilled, dedicated, technicians have the knowledge and expertise to deliver solutions from consultation & design through to installation & maintenance.

RESPONSIVE

We mobilize our dedicated technicians quickly and efficiently to your site to optimize your facility, minimize downtime, and maintain your productivity.

Whatever your industry, one thing is certain: You need a tailor-made electrical system. Spark Power excels in designing, building, and installing electrical systems which are on time and on budget.

End-to-End Solutions:

From immediate maintenance support to complex installations, Spark can design, retrofit, and relocate equipment to meet your project's needs.

Scalable Workforce:

Our branches are located across North America and home to a skilled workforce of specialized electricians and technicians who can meet your project's scope.

Post-Project Support:

We're here to help you long after installation, with planned maintenance, on-site training, and emergency support solutions to preserve your infrastructure.

Design, Build, and Install

End-to-end electrical system development and implementation.

Retrofits and Relocations

Moving and modifying existing equipment to meet your needs.

Education and Support

After installation, Spark Power trains your team to become expert users.

Component Maintenance

Precision servicing for all key elements and components.

Equipment Inspection

Looking for potential issues while your system is in operation.

Regularly Scheduled

Save time and avoid unplanned outages with ongoing maintenance.
