POLELINE & UNDERGROUND CONSTRUCTION & MAINTENANCE

Continuous flow of electricity to your utilities is critical. Spark Power has the experience and expertise to support you through each phase of your electrical overhead and underground construction and maintenance projects across North America.

What it is

Electrical underground construction & maintenance services:

- Secondary systems
- Primary systems
- Telecommunication systems

Installation & maintenance services:

- Wood, steel, & concrete poles
- Distribution systems
- Transmission systems
- Aerial fiber & telecommunication systems

Other services:

- Engineering & design of electrical systems
- Poleline inspection
- Storm restoration & emergency response

When to reach out for support

Whether you are replacing a secondary pole in a barnyard, a 138kv H Frame, a 15kv underground cable install, require subdivision installation or storm damage repair, Spark Power's distributed branch model allows us to quickly and efficiently mobilize our dedicated technicians to your site at a moment's notice with the electrical construction and/or maintenance services required.

Why Spark

Spark Power crews have completed projects that range from single poles to 67-mile, three phase, double circuit transmission (off-road) lines. We have the expertise to repair secondary underground subdivisions and construct a 50-conduit duct bank comprised of primary, secondary and telecommunications. Whether it is replacing a bulb or providing high mast lighting to safely illuminate large work areas, Spark Power provides Pole-to-Product™ services safely and in a timely manner.

Spark Power is a leading independent provider of end-to-end electrical services, operations and maintenance services, and energy sustainability solutions to the industrial, commercial, utility, and renewable asset markets in North America. We work to earn the right to be our customers' Trusted Partner in Power™. In the state of California, we operate under license #533593. In the state of Texas, we operate under license #TECL-34613.
