RENEWABLE ENERGY

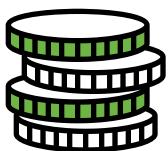

PROCUREMENT

BOOST PRODUCTIVITY, REDUCE OPERATING COSTS, AND LOWER YOUR CARBON FOOTPRINT.

Incorporating clean energy into business operations is a smart, efficient way to hit your sustainability targets without negatively impacting profit and production. Renewable energy procurement identifies and implements the ideal solution for your corporate and sustainability needs.

CORPORATE POWER PURCHASE AGREEMENTS (PPAs)

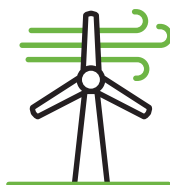

Get expert assistance in directly connecting you with an independent renewable power generator so your business can start enjoying the benefits.

Economic

Fixed pricing, flexible contract options, and no changes to existing infrastructure allow for:

- Consistent payment
- Easy budgeting
- No installation or maintenance costs
- Protection against carbon taxes

Environmental

Corporate PPAs enable you to meet renewable energy targets along with:

- Carbon reduction
- Consistent supply of reliable solar and wind power

Brand

Demonstrate your company's commitment to environmental sustainability to key stakeholders:

- Customers
- Shareholders
- Employees
- Investors

RENEWABLE ENERGY CERTIFICATES (RECs)

Eliminate your organization's emissions footprint by having us inject clean energy into the grid and issue a REC on your behalf proving your commitment to using renewables.

Environmental benefits

Meet your energy and carbon reduction goals head on as you protect Canada's environment:

- Displace carbon dioxide (CO₂) emissions
- Help fund community-based renewable energy projects across Canada

Business benefits

Reach out to eco-conscious consumers and engage employees like never before:

- Take credible, meaningful action against climate change
- Differentiate your business and its products
- Stand out as an employer and as a community-oriented business

Brand benefits
