

RENEWABLE ASSET MONITORING AND MAINTENANCE

MINIMIZE DOWNTIME, MAXIMIZE PERFORMANCE OF YOUR WIND AND SOLAR ASSETS.

Real-time data collection, ongoing maintenance, and on-demand emergency service are the keys to getting the most power, performance, and profitability from your solar and wind assets. Spark Power offers comprehensive proactive and protective solutions for asset owners, stakeholders, investors, and those responsible for operations and management (O&M).

SOLAR

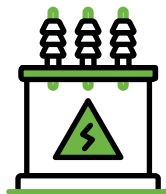

Customized solutions, real-time monitoring, and end-to-end service keeps your solar assets productive and profitable.

Operations

Services to consistently deliver peak performance:

- Dedicated site management
- Full-time technician staffing
- Data collection and analysis
- Detailed service history and event reporting

Maintenance

Planned, predictive, and preventative maintenance:

- Substation and high voltage maintenance
- Verification and testing
- Insulating oil property and gas analysis
- Cable testing

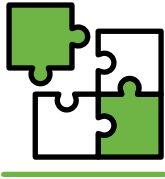

Consulting

Late stage development support and guidance:

- Project feasibility
- Supervisory control and data acquisition (SCADA) system selection and development
- Project installation and construction inspection services
- Quality control assistance

WIND

From the base of the tower to the tip of the blade, comprehensive monitoring and maintenance ensure your turbines are always generating power.

O&M solutions

Solutions to exceed power and performance expectations:

- Site management and technician staffing
- Planned, predictive, and preventative maintenance
- Substation and high voltage solutions

Asset monitoring

Accurate data collection and analysis for insight into asset performance:

- Ignition SCADA monitoring
- Reporting on asset uptime and performance ratio
- Customized dashboards for easy viewing

Service and repairs

Major and minor repairs and replacements of key components:

- Uptower servicing
- Gear boxes, generators, and blades
- Yaw and hydraulic systems
- Retrofit services

HEALTH AND SAFETY

When it comes to safety, **only zero is acceptable. Zero** accidents at work.
Zero compromise to prioritizing safety.
