

SPARK POWER IS YOUR TRUSTED PARTNER IN POWER™ FOR MICROGRIDS

At Spark Power, we offer all the services required to deliver microgrid opportunities. We have experience and expertise in completing projects requiring engineering, procurement, and construction, as well as the ongoing maintenance after commissioning. To date, Spark Power has over 6,000 customers and nearly 1,300 employees throughout Canada and the United States. The company works in a variety of markets including serving industrial, commercial, institutional (ICI) customers electric utilities, and renewable asset owners.

We work hard to earn the right to be our customers' Trusted Partner in Power™. Whether it's guidance on better power management, installation of complex processes and automation equipment, providing routine maintenance, delivering renewable operations and maintenance service, or 24/7 emergency electrical support, we aim to be our customers' first and only call for all of their power needs.

As an organization dedicated to offering best-in-class engineering, procurement, and construction services, we provide:
