SERVING THE BAKERSFIELD REGION

We're excited to welcome you to Spark Power's Bakersfield branch! As Spark's California hub, we offer fully integrated, end-to-end solutions to meet all your electrical needs. Our 1,700 sq. ft. facility provides you with a wide range of electrical services, including:

- 24/7 customer support through our low voltage electrical contracting and service division, with a strong focus on the oil and gas, food and beverage, and manufacturing sectors.
- Support to execute a range of construction projects — from commercial to industrial and renewable energy generation sites.
- Utility construction and maintenance for high voltage projects of any size, including full substation projects.

"We are proud to be serving the Bakersfield region and beyond with turnkey electrical services. Whether oil and gas, food and beverage, manufacturing or other sectors, Spark Power has been in California for over 50 years and is your Trusted Partner in Power."

Tony Nuzzo
Regional Operations Manager, Spark Power

"At Spark Power, we always strive to put the customer first, which includes working within their timeline and budget. Our teams are local and knowledgeable about electrical incentives and efficiency programs that can save you both time and costs."

Joseph Duncan
Project Manager, Spark Power

About Spark Power

Serving over 5,500 customers across North America from our 35+ local branches, Spark is a leading independent provider of turnkey electrical services. With safety as our number one priority, our highly trained team is in your community and ready to meet all your power needs.

Spark's Pole-to-Product services mean that we can design, install, and service electrical systems, providing you with end-to-end support. Through our specialized facility, we can execute large fabrication projects in-house and provide a strategic location for staging and servicing your sites throughout California.
