

SERVING THE SAN ANTONIO REGION

We're excited to welcome you to Spark Power's San Antonio branch! As one of Spark's Gulf Coast hubs, we offer fully integrated, end-to-end solutions to meet all your electrical needs. Our 6,000 sq. ft. facility provides you with a wide range of electrical services, including:

- 24/7 customer support through our low voltage electrical contracting and service division, with a strong focus on the manufacturing sector.
- Support to execute a range of construction projects — from commercial to industrial and renewable energy generation sites.
- Around-the-clock emergency services with little to no downtime, when and where you need it.
- Utility construction and maintenance for high voltage projects of any size, including full substation projects.

"Spark is proudly serving the San Antonio region and beyond. From manufacturing to project management and in-field technical services, we offer end-to-end solutions to meet your facility's needs, always within your scope."

Jaime Katz

San Antonio Branch Manager, has worked in San Antonio's electrical industry for over 20 years, including ground up construction and servicing/remodeling existing facilities.

"At Spark, our goal is to create trusted relationships with all of our customers. We do this by delivering our work on-time and on-budget, ensuring your facility's optimal performance. We know the San Antonio region and can bring this local knowledge to ensure your project receives high-quality products and service."

Stacey Mercer

Regional Account Manager at Spark's San Antonio branch with over 12 years of local account management experience for commercial, industrial, manufacturing, and distribution clients.

About Spark Power

Serving over 5,500 customers across North America from our 35+ local branches, Spark is a leading independent provider of turnkey electrical services. With safety as our number one priority, our highly trained team is in your community and ready to meet all your power needs.

Spark's Pole-to-Product™ services mean that we can design, install, and service electrical systems, providing you with end-to-end support. Through our specialized facility, we can execute large fabrication projects in-house and provide a strategic location for staging and servicing your sites throughout Texas and beyond.
