

# STORM EMERGENCY RESPONSE SERVICE

Our teams are ready to meet your emergency electrical power needs – anytime, anywhere in North America.

## FULL SERVICE

Providing end-to-end electrical contracting, operations and maintenance services for industrial facilities, OEMs and utilities across North America.

## EXPERIENCED

Over 1000 highly skilled, dedicated, technicians have the knowledge and expertise to deliver solutions from consultation & design through to installation & maintenance.

## RESPONSIVE

We mobilize our dedicated technicians quickly and efficiently to your site to optimize your facility, minimize downtime, and maintain your productivity.

## Rain or Shine Service:

Early morning, at night, or over the weekend — whenever power failures occur, we'll be there with the emergency services you need.

## Weather-Related Emergency Services:

Spark's powerline technicians and engineers are equipped to restore power to communities or businesses impacted by weather-related power disruptions, including heavy snow and thick ice, flooding, tornadoes, hurricanes, hail, and wildfires.

## Shift Coverage:

Our dedicated technicians provide on-call and shift coverage services for vacation, sick leave, and additional needs that your facility may require, including continuous improvement and routine maintenance.

**24/7 emergency response from Spark Power delivers prompt service to control damage, minimize downtime, and mitigate lost revenue.**

### Restore

Temporarily providing safe, reliable, consistent access to power until a more permanent solution is found.

### Repair

Repairing low to high voltage equipment, utility poles, powerlines, and substations, as well as renewable energy assets.

### Replace

Replacing damaged pole line infrastructure, power systems, automation and control units, panels, and other operational assets.

### Co-ordinate

Communications notifying customers impacted and partnering with local utilities to restore production quickly.
