

SPARKPOWER™ SYSTEM INSTALLATION

CUSTOMIZED TURNKEY ELECTRICAL SYSTEM INSTALLATION

Whatever your industry, one thing is certain: You need a tailor-made electrical system. Spark Power excels in designing, building, and installing electrical systems which are on time and on budget.

INSTALLATION SERVICES

First, we take the time to learn about your business and its needs. Then we take your project from the drawing board to the fabrication studio, and ultimately into your facility.

Design, build, and install

End-to-end electrical system development and implementation:

- Programming
- Engineering
- Machine wiring
- Equipment installation

Retrofits and relocations

Moving and modifying existing equipment to meet your needs:

- Lighting modifications
- Machine transport and set-up
- Large scale system moves from one location to another

Education and support

After installation, Spark Power trains your team to become expert users:

- Consulting services
- Training sessions
- System functionality
- Use case scenarios

Temporary and custom solutions available: Built-to-spec systems for limited use projects, custom, one-time operations, and even special or singular events.

CUSTOM MAINTENANCE FOR YOUR CUSTOM SYSTEM

Post-installation maintenance ensures the experts who built and installed your electrical systems are also the ones who keep it operational.

Component maintenance

Precision servicing for all key elements and components:

- Wire size and fuses
- Motor load and overload protection
- Circuit review
- Breaker and survey lighting panels

Equipment inspection

Looking for potential issues while your system is in operation:

- Thermographic scans
- Power factor correction
- Arc fault and ground fault interrupter (GFI) breaker inspection
- Control panel inspection

Regularly scheduled

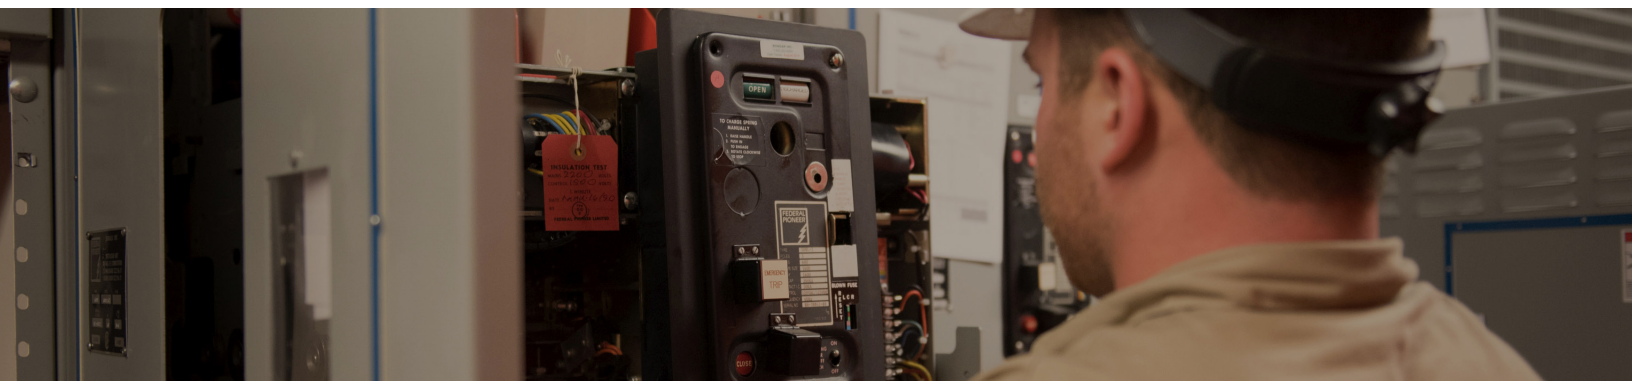

Save time and avoid unplanned outages with ongoing maintenance:

- Troubleshooting
- Retrofits
- Consulting and specialized training
- Identifying worn out equipment

Emergency support and service: If your system ever goes down, we'll get it going again with the urgency, professionalism, and quality you demand and deserve.

HEALTH AND SAFETY

When it comes to safety, **only zero is acceptable. Zero** accidents at work.
Zero compromise to prioritizing safety.

Spark Power is a leading independent provider of end-to-end electrical services, operations and maintenance services, and energy sustainability solutions to the industrial, commercial, utility, and renewable asset markets in North America. We work to earn the right to be our customers' Trusted Partner in Power™. In the state of California, we operate under license #533593. In the state of Texas, we operate under license #TECL-34613.
