

TRANSFORMER INSTALLATION

As your Trusted Partner in Power™, Spark's experienced group of high voltage (HV) specialists have installed and serviced the world's leading transformer manufacturers. We can service, repair, and install transformers of all voltage and MVA classes.

Comprehensive, custom & complete service

At Spark, you can access best-in-class power services, including HV services through our highly trained and experienced engineers and tradespeople.

Repairs & Maintenance

- Re-gasketing
- Oil processing
- LTC maintenance
- Radiator & bushing replacements
- Visual inspections
- Transformer disposal
- Transformer oil disposal
- Electrical/mechanical inspections
- Schematics/controls
- Function testing

Testing & Commissioning

- Device and equipment testing & verification
- Ratio testing
- Winding resistance testing
- Power factor testing
- Polarization index testing
- Insulation resistance & core ground testing
- Winding temperature
- Fans
- Oil sampling & analysis
- Sweep frequency response analysis test
- Non-electrical trips & alarm testing
- Tap changer controller (Beckwith)
- Gas monitoring
- Busing monitoring

Construction

- Full-service delivery
- Transformer assembly
- Crane & rigging
- Jack and roll
- Confined space entry
- Fall arrest
- Piping and bracing
- Seismic reinforcement
- Radiators, pumps & valves
- Disassembly, crating & moving
- Hoarding

Spark Power is a leading independent provider of end-to-end electrical services, operations and maintenance services, and energy sustainability solutions to the industrial, commercial, utility, and renewable asset markets in North America. We work to earn the right to be our customers' Trusted Partner in Power™. In the state of California, we operate under license #533593. In the state of Texas, we operate under license #TECL-34613.
